# UNDERSTANDING LOCAL CUSTOMS TO ACHIEVE THE 2030 AGENDA

LAND AND GENDER  
IN THE WESTERN BALKANS

**5.a.2**  
INDICATOR

# UNDERSTANDING LOCAL CUSTOMS TO ACHIEVE THE 2030 AGENDA

## TRANSFORMING OUR WORLD: THE 2030 AGENDA FOR SUSTAINABLE DEVELOPMENT INCLUDES 17 SUSTAINABLE DEVELOPMENT GOALS AND 169 TARGETS

On 25 September 2015, the UN's 193 Member States adopted new global goals for the next 15 years at the UN Sustainable Development Summit in New York.

The 2030 Agenda will become the main reference for development policies and programmes at country level.

### WHO WILL BE IN CHARGE OF TRACKING THE SDG INDICATORS?

Custodian agencies are responsible for taking the lead in coordinating and guiding the monitoring and reporting process on behalf of other partners and stakeholders.

*Metadata:* The UN Statistical Commission has published metadata reviewed/developed by custodian agencies for all of the 17 goals.

**FAO IS THE CUSTODIAN AGENCY FOR 21 INDICATORS.**

## LAND AND GENDER IN THE WESTERN BALKANS

### TARGET 5.a

Undertake reforms to give women equal rights to economic resources, as well as access to ownership and control over land and other forms of property, financial services, inheritance and natural resources, in accordance with national laws.

### INDICATOR 5.a.2

Proportion of countries where the legal framework (including customary law) guarantees women's equal rights to land ownership and/or control.

*FAO is the custodian agency for this indicator, working in partnership with the contributing agencies and partners.*

### WHY HAVE AN INDICATOR ON LAND?

The inclusion of indicator 5.a.2 acknowledges that greater equality in the ownership and control over land contributes to economic efficiency and has positive multiplier effects for the achievement of a range of other SDGs including poverty reduction (Goal 1), food security (Goal 2) and the welfare of households, communities and countries (Goals 3, 11 and 16, among others).

## SDG INDICATOR 5.a.2 METHODOLOGY

### GLOBAL LEVEL

Legal experts from relevant national institutions will scan all existing national draft laws, draft instruments and legal provisions to determine the existence of six proxies considered international good practice in guaranteeing gender equality in land ownership.

The six proxies cover:

- A. Joint registration
- B. Spousal consent for the sale or transfer of property
- C. Gender equality in inheritance
- D. Budgetary commitments to support equal land rights for women

E. Protection of women's rights in customary land tenure systems

F. Women's participation in land administration and management institutions

FAO, as the custodian agency will receive the results and calculate the percentage of countries where progress is being made in legal frameworks (including customary law) guaranteeing women's equal rights to land ownership and/or control.

The methodology for the SDG reporting under indicator 5.a.2 is currently in draft form. The proxies and methodology will be submitted to the Inter-agency and Expert Group on SDG Indicators, for endorsement.

## LAND AND GENDER IN THE WESTERN BALKANS

**THE LEGAL  
ASSESSMENT  
TOOL (LAT)  
INCORPORATES  
THE SIX SDG  
PROXIES AND  
ENCOURAGES  
COUNTRIES  
TO PRIORITIZE  
THE LEGAL  
REFORMS  
NECESSARY  
TO ACHIEVE  
GENDER  
EQUALITY**

### PROPOSED REPORTING PROCESS FOR SDG INDICATOR 5.A.2

#### COUNTRY LEVEL

When undertaking the Indicator 5.a.2 assessment at the national level, countries are recommended to undertake the Legal Assessment Tool (LAT). The LAT, which incorporates the six SDG proxies, allows countries to comprehensively plan, prioritize and implement the legal reforms necessary to achieve gender equality both in law and in practice. The LAT offers a list of 30 legal indicators for gender-equitable land tenure. Each country is encouraged to have a participatory

process for analysing its legal provisions and to establish an action plan for the implementation of the identified reforms.

The LAT indicators measure the extent to which laws and policies on inheritance, nationality, property rights and access to justice are gender equitable and whether special measures aimed at achieving de facto equality have been brought into the legal and policy framework. For each indicator, a stage from 0-4 is allocated, depending on the extent to which it has been incorporated into the legal and policy framework.

#### REGIONAL LEVEL

At the regional level countries are encouraged to share the results of the SDG Indicator 5.a.2 assessment and the LAT through regional meetings and joint publications. This helps establish and maintain support for legislative amendments and other efforts to be undertaken in each country.

The SDG Indicator 5.a.2 assessment and the LAT helps countries to identify similarities and share best practices, as well as learn from each other's experiences.

# UNDERSTANDING LOCAL CUSTOMS TO ACHIEVE THE 2030 AGENDA

## WESTERN BALKANS REGIONAL INITIATIVE

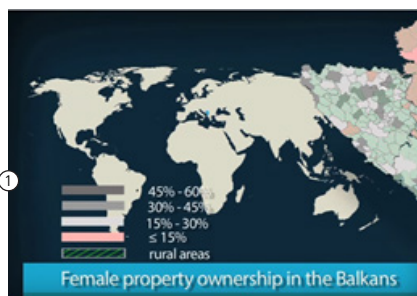

The Western Balkans regional initiative addresses the challenges faced regarding increasing women's land ownership in the Western Balkans. The countries of the Western Balkans have established multi-stakeholder gender teams consisting of land administration specialists, government policy makers, gender officers, local NGOs and notaries to support the process of improving gender equality and social inclusion in terms of property rights.

### TEAMS WERE TRAINED ON:

- The Voluntary Guidelines on the Responsible Governance of Tenure
- The technical guide 'Governing Land for Women and Men'
- The 2030 Agenda
- The land related SDG indicators
- The Legal Assessment Tool

### WHAT THE DATA SHOWS ①

Sex-disaggregated data was produced by each country and indicated low levels of female ownership. Governments within the region were surprised to learn that female ownership in some places was as low as 3%, and not more than 30% in most cases. The use of existing property registration data demonstrated that such information could be instrumental in promoting and advocating gender issues with policy makers.

### STORIES FROM THE NOTARIES ②

Notaries within the region have identified cases where women have lost their ownership of land due to either a lack of legislation or standardized procedures by legislative bodies or due to discriminatory customs. In a large number of cases, women have renounced their property rights due to social pressure, and on occasions due to the belief that they did not have the right to own land.

### IN SUPPORT OF THE 2030 AGENDA ③

**SDG indicator 5.a.2** In support of the 2030 Agenda, the Deutsche Gesellschaft für Internationale Zusammenarbeit (GIZ) on behalf of the German Federal Ministry for Economic Cooperation and Development (BMZ), the Food and Agriculture Organization of the United Nations (FAO), the International Union of Notaries (UINL), United Nations Economic Commission for Europe (UNECE), the World Bank and UN Women are all supporting the Western Balkans region to improve gender equality and to contribute to the testing and implementing of SDG indicator 5.a.2.

## RESULTS OF THE SDGs INDICATOR 5.a.2 METHODOLOGY'S PILOTING IN THE WESTERN BALKANS

In June and July 2017 the proposed Indicator 5.a.2 monitoring methodology was piloted in two states in the Western Balkans, Serbia and Albania, with the objective to assess the applicability of the proxies and the suitability of the guidelines to those countries. The results were as follows:

- 0: Absence of proxy
- 1: A policy is being developed that incorporates the proxy
- 1.5: A policy is in place, incorporating the proxy
- 2: Draft legislation is to be submitted for consideration
- 3: The proxy appears in primary law
- 4: The proxy appears in secondary legislation
- N/A: The proxy is not applicable

# UNDERSTANDING LOCAL CUSTOMS TO ACHIEVE THE 2030 AGENDA

## GOOD PRACTICES FROM THE WESTERN BALKANS COUNTRIES

- Spousal consent is mandatory for any transaction involving matrimonial property in Albania, the Former Yugoslav Republic of Macedonia and Montenegro.
- Property acquired during the duration of a consensual/non-marital union is considered co-ownership or joint ownership in Bosnia and Herzegovina, the Former Yugoslav Republic of Macedonia, Montenegro and Serbia.
- There is a Strategic Plan for the Development of Agriculture and Rural Areas of the Republic of Srpska in Bosnia and Herzegovina that provides a financial incentive of 5% if a woman is a farm holder.

## LAND AND GENDER IN THE WESTERN BALKANS

### RECOMMENDATIONS

Adopt national policies to strengthen women's access to land ownership and control over landed property.

Amend legislation on immovable property to provide financial incentives for the registration of spousal land rights (fee waivers or tax incentives).

Mandate that the real estate cadastres collect sex-disaggregated data on land owners and on other land rights holders.

National chambers of notaries to develop guidelines on notaries' responsibility to raise client's awareness of women's tenure rights prior to land transactions.

The UINL to prepare a common ethical standard for legal professionals, in line with the Voluntary Guidelines on the Responsible Governance of Tenure.

# UNDERSTANDING LOCAL CUSTOMS TO ACHIEVE THE 2030 AGENDA

# LAND AND GENDER IN THE WESTERN BALKANS

## LOOKING FORWARD

**The GIZ Open Regional Fund - Legal Reform on behalf of BMZ** continues to support participating countries within the framework of a new regional project. The project will support the implementation of the recommendations of the LAT through technical assistance, regional exchanges and capacity development.

**Legal professionals**, such as lawyers and notaries, are key players in the process for achieving gender equality.

FAO and UINL signing the MoU - 8 January 2016, Rome, Italy  
© FAO / Lea Plantek

**The UINL** is committed to playing a critical role in achieving target 5.a.2. Within the FAO-UINL Memorandum of Understanding, signed on 8 January 2016 the UINL is taking initiative to develop an ethical code for legal professionals which will both deal with tenure rights and aim to enforce common standards in line with the Voluntary Guidelines on the Responsible Governance of Tenure in order to achieve target 5.a.

**The FAO** multidisciplinary team is committed to supporting countries to monitor and assess progress under SDG indicator 5.a.2, including by supporting cross-regional cooperation and knowledge sharing between different regions.

### JOINT CALL FOR ACTION

**The FAO Regional Office for Europe and Central Asia** and national partners from the region are in agreement to uphold and promote women's equal access to land.

At the high-level regional conference "Promoting socially inclusive rural development in Europe and Central Asia: Action for the 2030 Agenda" in Vilnius, Lithuania (30 January – 1 February 2017), more than 60 participants representing governments, civil society and academia, agreed on a Joint Call for Action. The Call for Action commits all relevant stakeholders to support gender equality in land ownership, to effectively meet the SDGs and to ensure that no one is left behind.
